Welcome to IPU

The Institute of Public Utilities (IPU) supports informed, effective, and efficient regulation of the infrastructure-intensive network industries providing essential utility services – electricity, natural gas, water, and telecommunications. IPU was established in 1965 and operates as a self-sustaining unit within the College of Social Science at Michigan State University, the nation's pioneer land-grant institution. We are located on MSU's beautiful East Lansing campus and collaborate with faculty and researchers from various academic colleges, departments, and centers.

IPU specializes in conducting applied research and providing exceptional learning and networking opportunities to professionals in the utility policy community. IPU's neutral analytical and instructional practice is informed by a broad array of traditional and applied disciplines including economics, political science, law, accounting, finance, and engineering. IPU's educational forums sharpen the skills needed to address today's most salient challenges of infrastructure governance, including the integration of markets and economic regulation.

Upcoming Programs

- **Fundamentals Program**
  August 6-10, 2018
  Intermediate Program
  August 13-17, 2018
- Advanced Program
  October 1-5, 2018
- Michigan Forum
  February 22, 2019
- Power Grid Program
  April 8-11, 2019
